TECHCONET

About Us

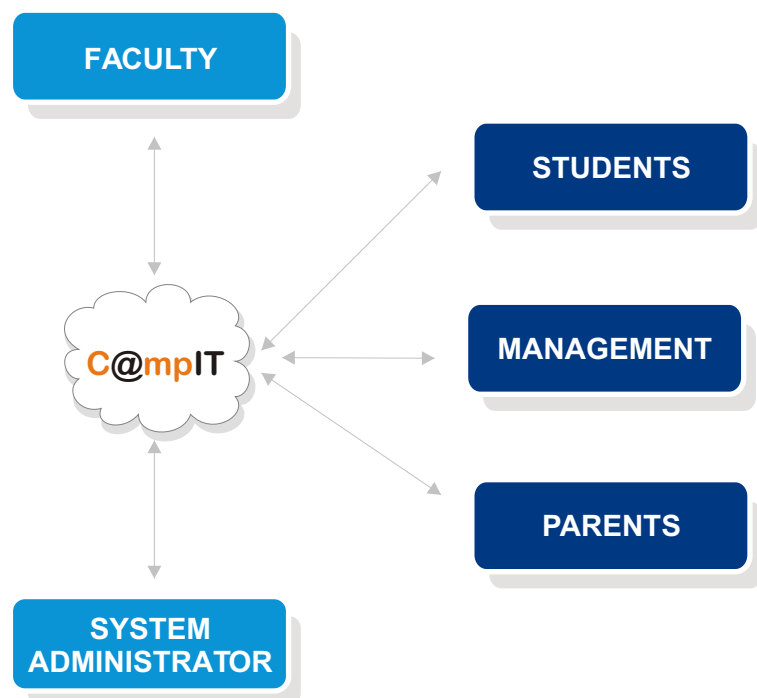

Precision Techconet is the software solutions arm of the US \$ 60 million plus (Rs. 240 plus crores) Precision Group of companies. Precision Group is a total IT solutions provider with offerings spanning hardware, software and networking product sales, support services, infrastructure management, software application solutions and bio-metric solutions.

Precision Techconet provides software solutions which includes Enterprise Resource Planning (ERP) solutions for businesses on the Microsoft Dynamics Platform and for institutions with C@mpIT, Outsourced Product Development Services, ITIL based solutions and consulting (through its own product, InsTIL™) and Online Marketing Services. Precision Techconet strives to offer measurable value through IT.
